

Africa Oral Genealogies & Family Histories Project

Mobile App Update Release Notes

Update v1.1.0

1. Added the ability for contractors to manage interviews.
2. Deleting the interview from inside the app now deletes the zipped folder from the internal storage.
3. Allows interviewers to submit a first ancestor with a first name only.
4. Allows interviewers to change their profile picture.
5. New warning message added to notify when the device storage is filling up.
6. The app now prevents the user from transferring interviews to the internal storage if the device is full. (It will still transfer the files to the SD Card).

Update v1.2.0

1. Audio quality check sensitivity reduced
2. Requires location services to be enabled when creating an interview
3. Added ability to log in as an Administrator (Contractor) and manage interviewers and their interviews
4. Added ability to delete interviews for interviewers
5. Limited text to 128 characters for all text input fields
